EuPEO Reporting Questions

“Chain of Evidence” Principle: from micro to macro / from individual to systemic

What learning do students get from PE?

What is the amount and nature of PA opportunities that students get in schools?

How do students experience school-based PA?

How is the teaching workforce organised in schools towards supporting PA for students?

What partnerships do schools engage with to support PA for students?

To what extent is PE structured in Educational Policy?

EuPEO Future and Development

Discussion
on
opportunity
for EuPEO
2.0 and its
potential
objectives
and format.

Split EuPEO sustainability from side-projects

EUPEA moving HQ to Luxembourg (eligible to coordinate Erasmus+ projects)

Consider innovative aspects of EuPEO 2.0 (e.g. instruments, use of the platform outputs) materialized in intellectual outputs

Consider alternative strands of funding in Erasmus+ (e.g. Sport and KA's) to exploit the use of the outputs

Proposed aims:

- Test generalisation of EuPEO to Europe (horizontal development)
- Deepening of European and National network in each country (vertical development)
- Promote advocacy development through EuPEO
